# Eltec Volare

2 stop Eltec Volare featuring Opaque Swing Door in a white finish.

# Eltec Tower

The Eltec Tower is one of the most affordable and easy to install lift shafts within Australia. This innovative product comes inclusive with the Eltec Volare.

## Affordable

The cost of the Volare Tower is included within the cost of the Eltec Volare Elevator. This is unprecedented within the industry and makes it one of the most affordable elevators of its kind on the market.

## Configurable

The size of the structure can be adjusted according to various needs; up to a maximum height of 10 metres.

## Adaptable

Ingenious and simple fixing system which allows you to adapt the tower on site, directly to its surrounds.

## Effortless Surfacing

The Volare Tower is designed to be covered with panels in either wood or strengthened plasterboard. This allows for the easy customisation of external walls.

## Easy Installation

The special aluminium frame provides exceptional strength whilst remaining lightweight and easy to manoeuvre. The clever modular system makes for a quick and seamless installation process.
